

# NM Department of Health Diabetes Prevention and Control Program FY 12 Total Budget by Funding Category

**Total Operating Budget: \$1,456,784**

The program's budget comes from three funding sources; state general funds, state tobacco settlement funds, and federal funds from the Centers for Disease Control and Prevention. Due to budget cuts from all funding sources over the past two years, the FY 12 budget is about 32% less than the FY 10 budget. This has significantly impacted programs and services.
